

CIRCULATION VALVE KPZ

DESIGNED FOR

- As a part of different types of completions where communication between tubing and annulus required;

FEATURIES

- Opens by applying of excessive pressure into a tubing;
- Single performance valve;
- Opening pressure can be set to desire value;
- Made of corrosion resistant materials;

SPECIFICATIONS

Description	KPZ-93-62-35
Casing ID, mm	99
Pressure rating, MPa	35
Working pressure, MPa	10-35
Valve ID, mm	62
Temperature rating, C	100 (150)
OD, mm	93
Length, mm	270
Weight, kg	5.5
